**WEEKLY NEWS UPDATES IN PROSTATE CANCER**

*In this edition:* **THE VALUE OF MRI FUSED BIOPSY**

The following articles help put to rest the value of MRI fused biopsy and compares it to the regular ultrasound guided biopsy. The next big step forward will be the 30 megahertz ultrasound, which will be available next year and will compete with the MRI. Progress, followed by more progress. These articles could be used to appeal to health plans to approve the newer scans.
