**WEEKLY NEWS UPDATES IN PROSTATE CANCER**

*In this edition:*

## **FOCAL THERAPY FOR PROSTATE CANCER**

The idea of just treating the diseased part of the prostate has been around for quite awhile. High intensity ultrasound (HIFU) has also been here for some time, but has not really caught on. The use of MRI guided transurethral approach to just treat a solitary lesion is now gaining traction as a way to do a more directed minimally invasive treatment.

To read more about focal therapy, click [here](#) and [here](#).
